

Speed dial – F610

For F610 there are two kind of speed dial:

1. Long press the number pad (5)
2. Press the speed dial key on the right of phone front (4).

For the first speed dial, please long-press the number key, then press “OK” button to choose a number from your phone book list. In the future if you long press this number, it will call the number you set.

For the second speed dial, please go to “settings -> phone settings -> shortcuts”. Then set the number for shortcut 1.
